Making Arrangements

At Riverview Abbey Funeral Home, we want to make arrangements simple for you. We offer a large variety of containers and traditional caskets designed to meet your specifications but we'll be happy to go over them with you and answer any questions you may have.

Burial Caskets

We offer a vast selection of burial caskets made from various woods, metal and steel. You can choose from many different styles and we offer a range of price points. Should you want to offer a unique tribute to your loved one, ask us about our customization options.

Crypts and Niches

In Oregon, many people prefer indoor cemeteries. Indoor burial can actually save you a lot of money, since you don't need a burial vault, nor a memorial marker.

Burial Vaults

This is a common requirement by cemeteries to protect the casket and ensure proper grounds maintenance. Today, a lot of families choose to safeguard their loved one's remains by selecting a burial vault.

Memorial Markers

A memorial marker stands the test of time and serves as a physical reminder of a life celebrated and remembered. It provides a location for friends and family to visit and pay respects for years to come.

Urns

To accommodate the growing number of families who opt for cremation, our urn collection includes biodegradable urns for scattering as well as traditional urns made of marble, wood, bronze, or ceramic. Styles range from understated and classic to ornate and decorative.

Cremation Caskets

For those who choose cremation with a traditional funeral service, we offer cremation caskets built specifically for cremation.

Flowers

We work with local florists to offer a beautiful selection of flowers for the funeral, visitation, memorial or graveside service. Flowers can be self standing or arranged specifically for a casket or urn.
